

## **KINE 6803: Assignment 2**

**Due:** September 13<sup>th</sup>

### **Instructions:**

1. Create a new m-file in MATLAB and save your answers in it. At the top of your file, you should have a comment section with your name, the due date, and a brief description of what is contained in the file. This will be the standard format going forward for your assignments. Exercises can be found at the ends of Chapters 1, 2 and 3 in your textbook.

2. Add one blank line and then add one comment line with the following:

**%% Chapter 1 Exercises**

Complete exercises 1-6, 11-15, 22, 24-27. Use the following format (example shown for exercise 1):

**% 1.)**

### **Your solution**

3. Add one blank line and then add one comment line with the following:

**%% Chapter 2 Exercises**

Complete exercises 1-4, 6-10, 12, 23, 26, 30, 31

4. Add one blank line and then add one comment line with the following:

**%% Chapter 3 Exercises**

For this section, simply add your code for each exercise in your main script (do not make separate scripts even if the exercise calls for it, but do include the appropriate comments)

Complete exercises 1, 4, 6, 8, 13
